Aims and Scope

In an era marked by increasing socio-economic disparities and rapid urbanization, the journal acknowledges the urgent need to address the widening socio-economic gaps that profoundly impact contemporary urban societies. The complex challenge of balancing socioeconomic development with resilience in the built environment necessitates a platform for innovative and interdisciplinary dialogue. To this end, the journal aims to advance original, cross-disciplinary academic contributions that not only analyze these socio-economic divides but also propose actionable solutions to bridge them. By strengthening research in three core areas—Citizenship Rights and Responsibilities, Territorial Dynamics, and Urban Transformations—the journal seeks to illuminate the underlying factors contributing to socio-economic inequalities and to explore the emerging social and economic challenges that shape modern urban landscapes. Through this focused approach, the journal aspires to contribute meaningfully to the discourse on equitable urban development and to foster academic scholarship that can inform policy and practice, ultimately helping to create more inclusive, resilient, and sustainable cities.

Contributions are welcome from the full range of Social Sciences and Arts and Humanities disciplines. Contributors are expected to provide advanced empirical and theoretical knowledge relating to contemporary urban affairs—from both positive and normative perspectives. Priority for publication is given to research articles that are specifically written for a multidisciplinary audience, with the highest quality and impact. In this regard, the journal seeks articles that are innovative and demonstrate excellent research and development.

Important Note: Submitted articles must be consistent with the title and stated scope of this journal. Any submitted article outside the focus of the journal will receive a desk rejection.

Important Note: The Journal of Contemporary Urban Affairs is an international, peer-reviewed, open-access journal published biannually by Alanya University.
